PRISMA SIGNAGE LINE

FLOATING CLARITY, MODULAR IDENTITY

The Prisma signage line combines clarity, function, and elegance. Designed with a clean geometric aesthetic and layered materiality, it provides consistent and legible visual communication across architectural environments. Its signature vertical accent in wood or color laminate adds a distinctive detail while maintaining a professional tone suitable for corporate, institutional, or educational spaces.

PRISMA SIGNAGE LINE ADA SIGNS

Key Features

Brushed Finishes with Visual Depth:

All faceplates and metallic components feature a premium brushed aluminum finish that diffuses light evenly and reduces glare, enhancing legibility and surface texture.

Unified Visual Language:

Consistent typography, color contrast, and materials across modules—from stair IDs and room numbers to directional signs at restrooms.

Tactile and ADA-Compliant:

Raised characters and Grade 2 Braille are integrated across all signage, meeting accessibility requirements without altering the design clarity.

Modular and Updatable:

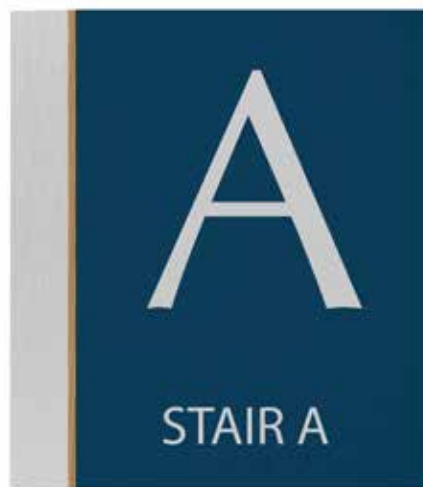

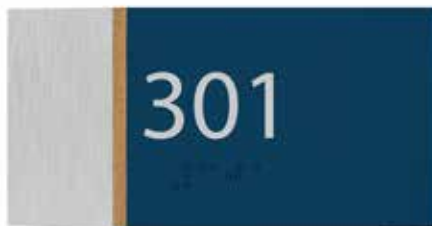

Compatible with paper inserts, status sliders, or fixed information—supporting both flexibility and permanence.

Distinctive Vertical Accent:

A slim vertical strip in wood or color laminate breaks the plane and adds identity without distracting from function.

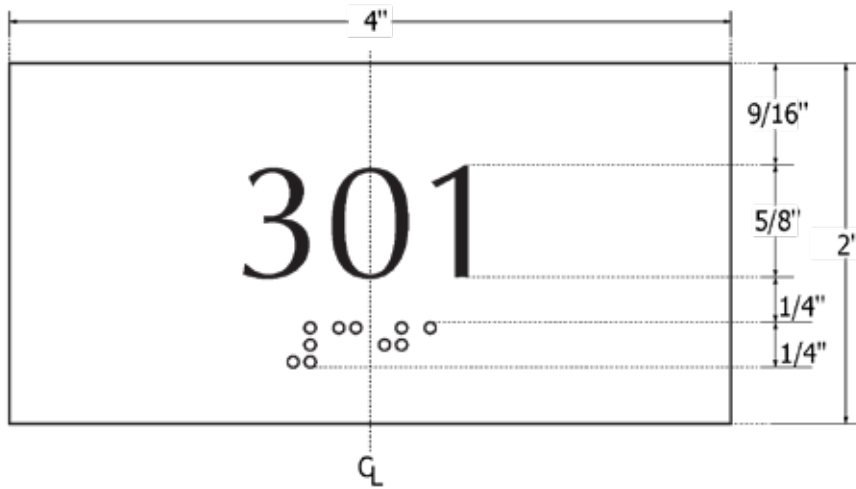

Versatile Use:

Ideal for office buildings, educational campuses, healthcare facilities, and public institutions.

PRISMA SIGNAGE LINE ADA SIGNS

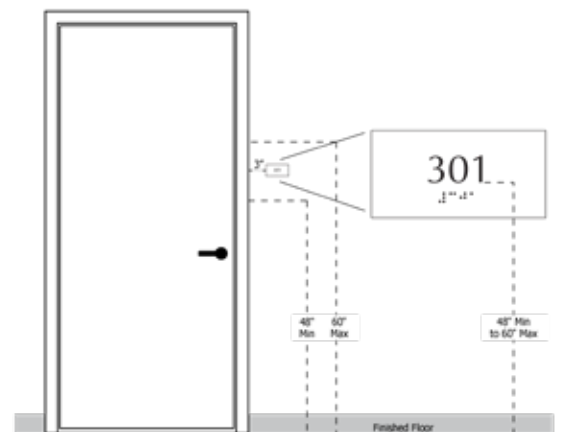

PRISMA A-1

03

A-1: ROOM ID SIGN

The Prisma A-1 sign is a standard room identification plaque designed for clarity and accessibility. Featuring a clean layout, the sign displays the room number in large, tactile characters, accompanied by Grade 2 Braille below for ADA compliance. A vertical accent strip in wood or color laminate breaks the monotony and adds visual interest, while the brushed aluminum edge introduces a refined contrast. The high-contrast color background ensures easy readability at a distance and under various lighting conditions.

PRISMA SIGNAGE LINE ADA SIGNS

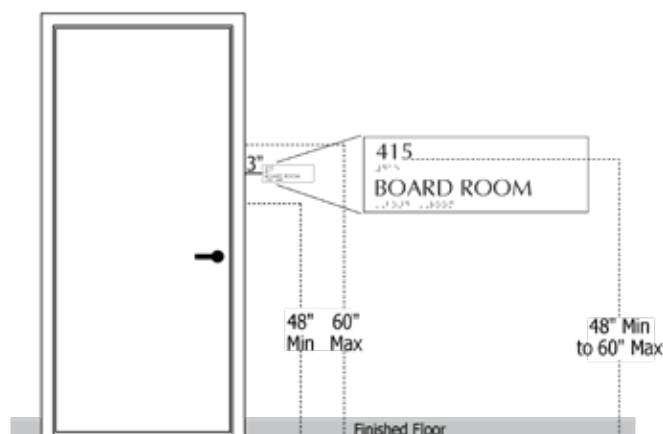

PRISMA A-2

04

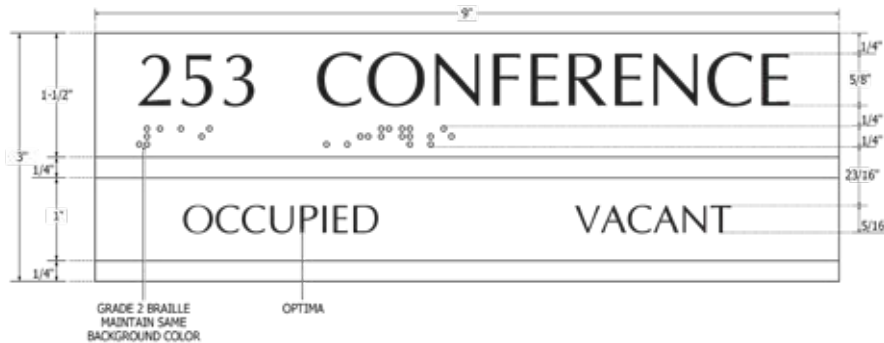

A-2: ROOM ID SIGN

The Prisma A-2 sign is designed to identify both the room number and function with clarity and distinction. Its extended horizontal layout allows for prominent labeling of specialized spaces such as meeting rooms, offices, or classrooms.

The sign combines a brushed aluminum edge, a warm vertical accent in wood or color laminate, and a high-contrast background for optimal readability. Raised characters and integrated Grade 2 Braille ensure full ADA compliance.

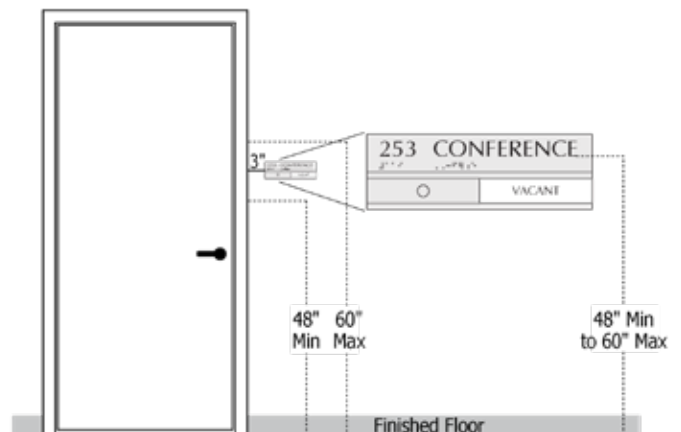

PRISMA SIGNAGE LINE ADA SIGNS

A-3: OCCUPIED / VACANT TOGGLE

The Prisma A-3 sign integrates room identification and real-time occupancy status in a single, elegant unit. Designed for conference rooms, consultation spaces, or shared offices, this sign features a smooth slider that toggles between "Vacant" and "Occupied."

The brushed aluminum slider adds a tactile cue while preserving the visual coherence of the Prisma line. A warm accent in wood or laminate visually anchors the piece.

PRISMA A-3

05

PRISMA SIGNAGE LINE ADA SIGNS

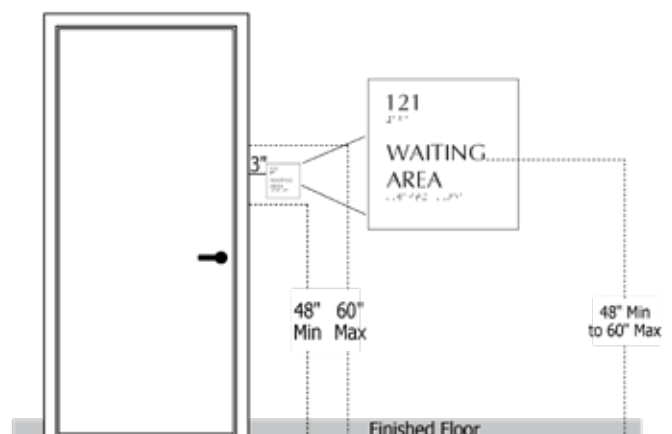

PRISMA A-4

06

A-4: ROOM ID SIGN

The Prisma A-4 sign is designed to identify public-use areas with clear, large-format text that enhances legibility from greater distances. Ideal for waiting areas, lounges, lobbies, or shared zones, it maintains the Prisma line's signature visual language—brushed aluminum finish, vertical accent strip, and ADA-compliant features.

PRISMA SIGNAGE LINE ADA SIGNS

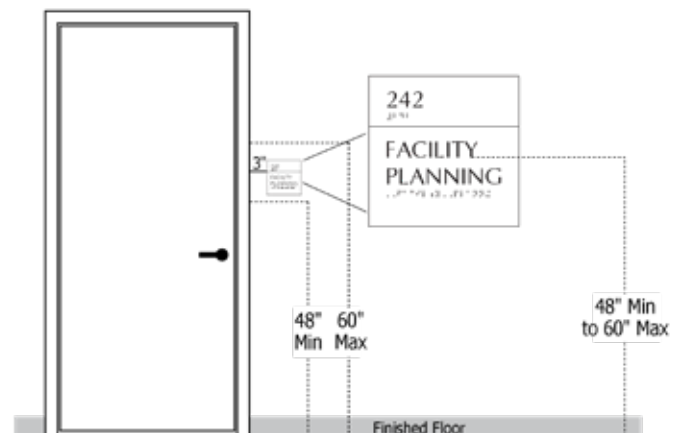

PRISMA A-5

07

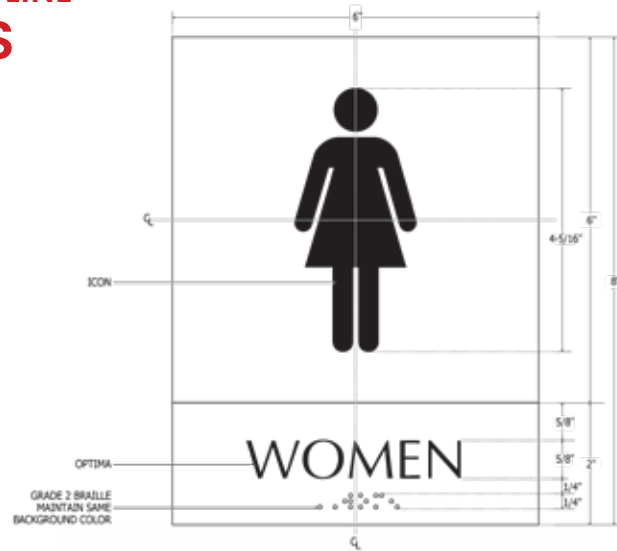

A-5: ROOM ID SIGN

The Prisma A-5 sign is designed for identifying rooms with long or compound names, departments, or specialized areas. Its generous height accommodates multiline text without reducing legibility, maintaining a clean hierarchy between room number and designation.

PRISMA SIGNAGE LINE ADA SIGNS

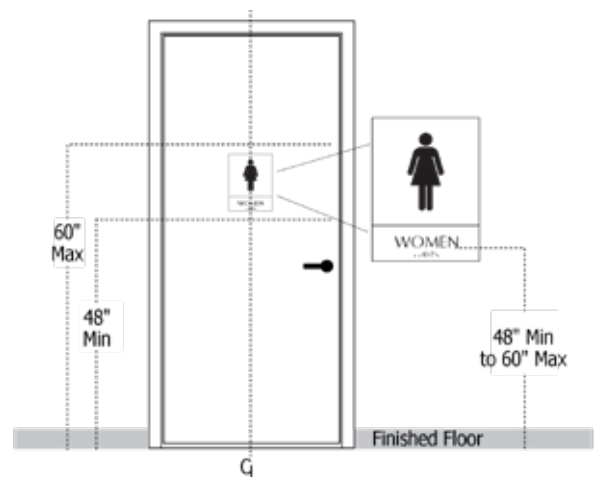

PRISMA A-6

08

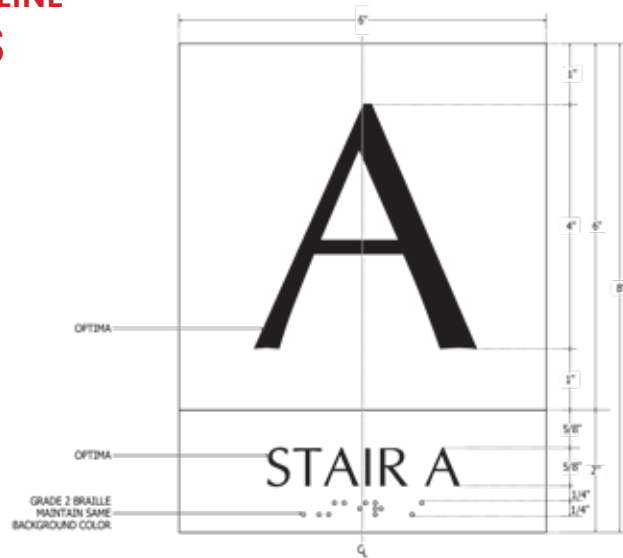

A-6: BATHROOM ID SIGN

The Prisma A-6 sign is designed to identify restrooms with simplicity and universal clarity. Featuring a brushed aluminum pictogram and tactile text, it ensures easy recognition while maintaining the refined visual identity of the Prisma line.

Its vertical format allows for balanced placement of icon, label, and Braille. The warm vertical accent in wood or color laminate introduces contrast and character, while the brushed metal finish reinforces durability and elegance.

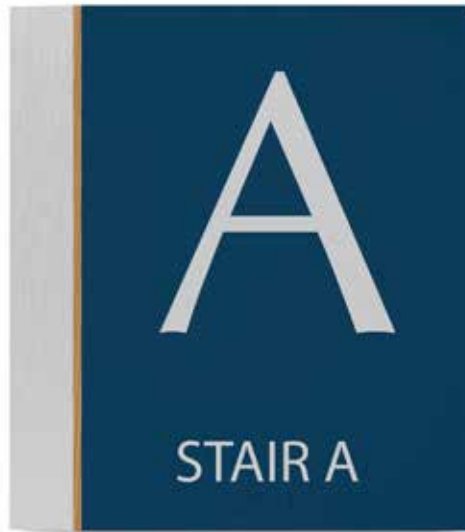

PRISMA SIGNAGE LINE ADA SIGNS

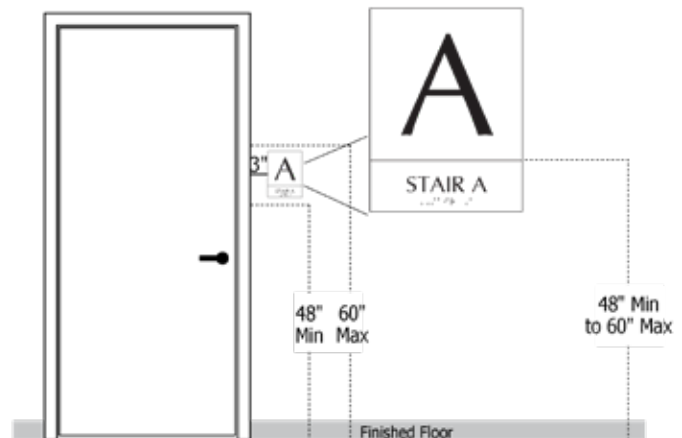

PRISMA A-7

09

A-7: STAIR ID SIGN

The Prisma A-7 sign clearly identifies stairwells with a bold, minimalist layout designed for quick recognition in emergency and daily-use scenarios. Featuring an oversized letter and clear label, this sign meets visibility and code requirements while preserving the refined design language of the Prisma line.

PRISMA SIGNAGE LINE ADA SIGNS

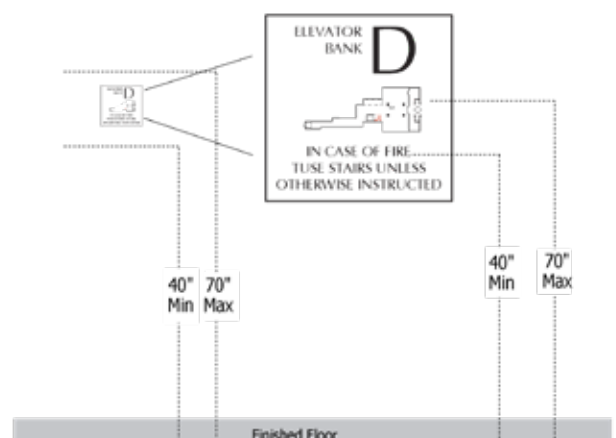

PRISMA A-8

10

A-8: FLOOR ID SIGN

The Prisma A-8 sign identifies floor levels with high-impact visibility and a refined material presence. Featuring a large floor number and clear label, this model ensures immediate orientation in stairwells, elevator lobbies, and corridor junctions.

The sign preserves the Prisma line's signature brushed aluminum finish and vertical accent strip, paired with ADA-compliant tactile elements and Grade 2 Braille for universal accessibility.

PRISMA SIGNAGE LINE

ADA SIGNAGE W/ FLEX OPTION

The Prisma Flex sign combines ADA-compliant room identification with a modular paper insert system, offering the perfect balance between permanence and adaptability. Designed for environments with frequently changing occupants or functions—such as meeting rooms, clinics, classrooms, or coworking spaces—this model allows users to update internal content quickly without replacing the entire sign.

The fixed ADA section features raised characters, Grade 2 Braille, and high-contrast color for full accessibility. Below, horizontal insert slots accept custom paper strips, protected by a front-loading transparent cover.

Key Features

Permanent + Changeable Info:

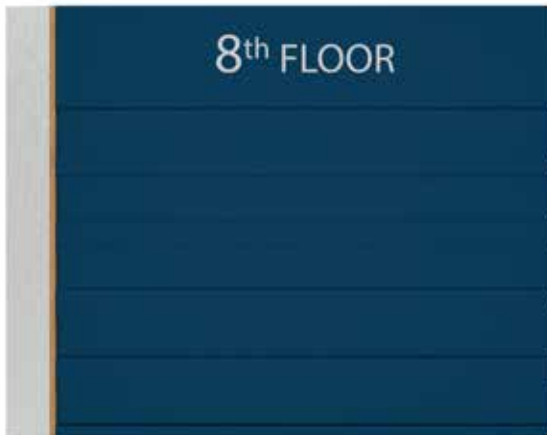

Static ADA section ensures accessibility, while insertable strips accommodate evolving content like staff names, temporary uses, or department changes.

Paper Insert Slots:

Multiple horizontal channels support printed or hand-written labels protected by transparent covers.

ADA Compliance

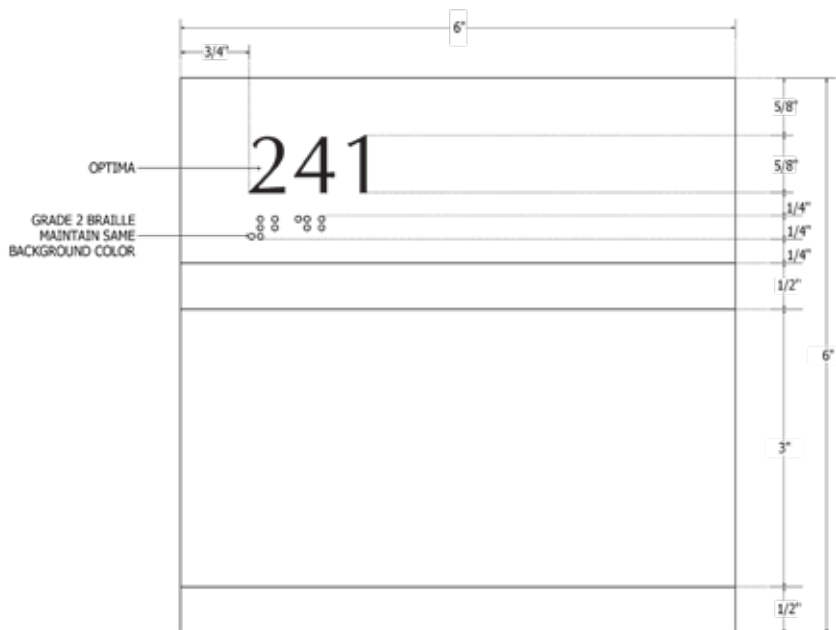

Braille and raised text on the header meet accessibility regulations and maintain legibility.

FLOOR DIRECTONIAL AND WAYFINDING

The Prisma directional signage system helps users navigate complex interiors with ease, combining precision layout with intuitive design. Designed for elevator lobbies, floor landings, and major corridor junctions, these signs display room ranges, departments, or tenants with arrows and clear visual hierarchy.

Key Features

Floor Identification and Directional Logic:

Features a fixed floor label in ADA-compliant tactile characters (optional), paired with left/right arrows that guide users to room ranges, company names, or service areas.

Multiple Layout Variants:

Available in versions with room number ranges, company names, evacuation maps, or a combination—accommodating tenant directories or emergency instructions.

Clear Visual Hierarchy:

Large floor numbers, well-aligned arrows, and consistent spacing make the signage readable from a distance and easy to scan while walking.

FLOOR DIRECTIONAL AND WAYFINDING

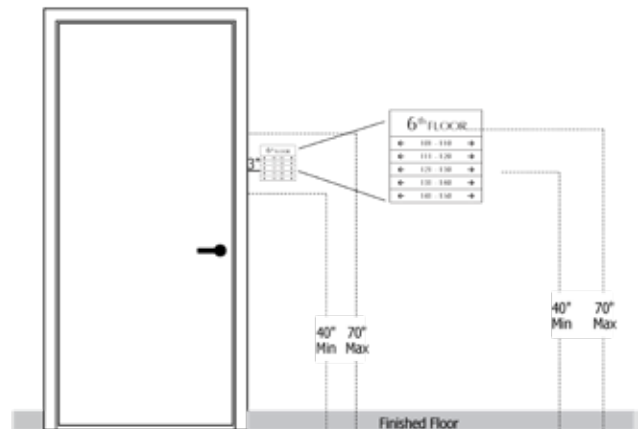

PRISMA C-1

18

C-1: FLOOR DIRECTORY NAMES

The Prisma C-1 sign is a floor-level directory designed to clearly display tenant or occupant names along with directional guidance. Ideal for elevator lobbies, floor landings, and shared corridors, it helps users locate specific suites or offices quickly and confidently.

PRISMA SIGNAGE LINE

FLOOR DIRECTONIAL AND WAYFINDING

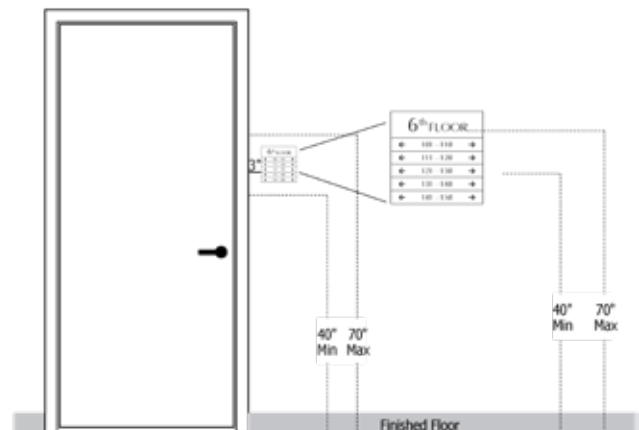

PRISMA C-2

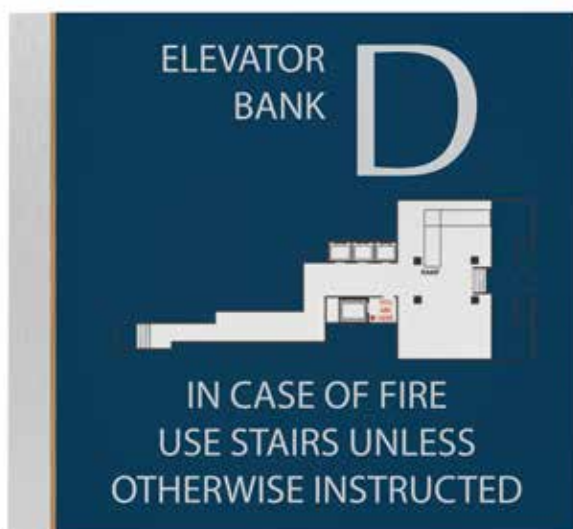

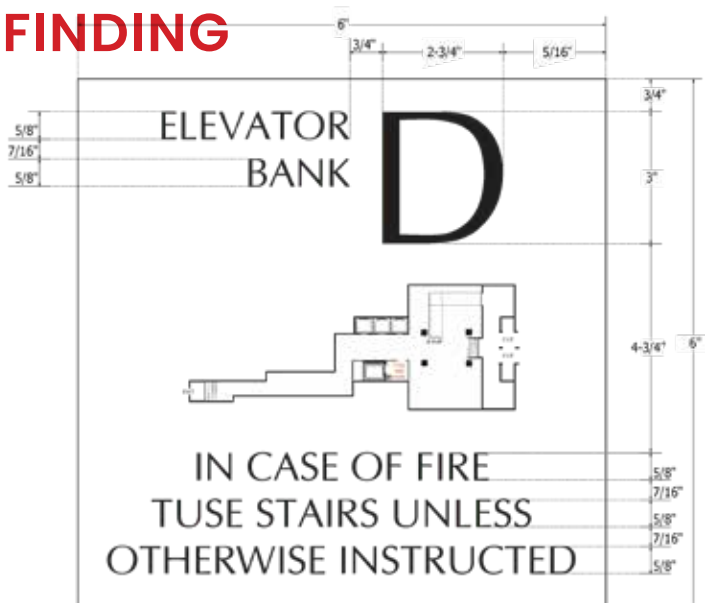

19

C-2: FLOOR DIRECTORY NUMBERS

The Prisma C-2 is a floor-level directory sign tailored to display room number ranges with directional arrows. Designed for intuitive wayfinding, it helps users locate rooms quickly by presenting structured information in a vertical sequence.

FLOOR DIRECTONIAL AND WAYFINDING

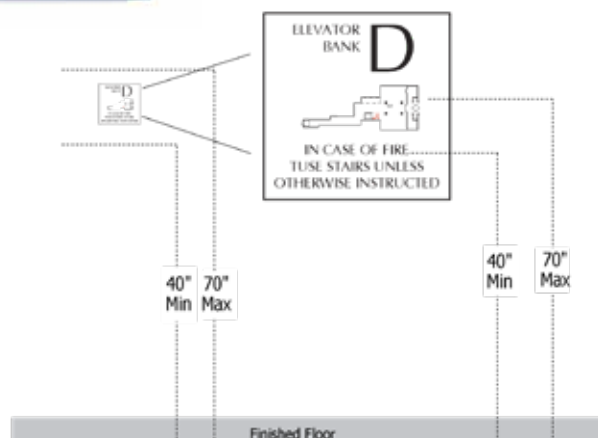

PRISMA C-3

20

C-3 : EGRESS MAP

C-3 is a Wall-mounted egress map designed to support safety and orientation. Placed near elevator lobbies and major circulation points, it provides a clear path to exits in emergencies and reinforces wayfinding through graphic and textual cues.

PRISMA SIGNAGE LINE PYLONS & DIRECTORIES

The Prisma Pylon and Directory system anchors the signage family with large-format solutions for exterior and interior use. Designed for campuses, complexes, and commercial centers, these pylons feature building directories, tenant listings, and area maps.

Key Features

Campus Map Integration:

Includes full building layouts with legends for quick orientation.

Dual-Language and Symbol Support:

Enhances accessibility and universal understanding.

Freestanding Monolithic Design:

Robust and clean silhouette suitable for indoor lobbies or outdoor plazas.

Interchangeable Panels:

Retail versions allow for tenant updates with printed or vinyl inserts.

Wayfinding Hierarchy:

Combines map, directory, and branding into a single, cohesive display.
