# ABOUT US

With over 50 years of experience, we are one of the leading architectural fabricators in the United States. We have completed countless projects with major contractors, developers, architects, and designers. We continue to set new standards for high-quality architectural fabrication.

At SD Industries, we specialize in precision-engineered metal, signage, and glass solutions tailored to meet the needs of architectural, commercial, and industrial projects. With a commitment to quality, innovation, and craftsmanship, we bring expertise and advanced manufacturing technology to every project. From custom architectural metalwork and high-visibility signage to durable glass solutions, we deliver products that enhance functionality, safety, and aesthetics. Our team is dedicated to providing superior design, engineering, and fabrication services, ensuring that every product meets the highest industry standards. Driven by excellence and customer satisfaction, we work closely with our clients to turn their visions into reality. Whether you need custom fabrication, installation, or consultation, SD Industries is your trusted partner in delivering high-quality, long-lasting solutions.

Standing Seam Metal Roofing	05
Ethylene Propylene Diene Monomer (EPDM)	07
Thermoplastic Polyolefin (TPO)	09

## STANDING SEAM METAL ROOFING

Standing Seam Metal Roofing is a durable and visually striking roofing system that provides superior weather resistance and long-lasting protection. The interlocking panels are raised above the roof deck, creating a seamless, watertight design that prevents leaks and minimizes maintenance. Ideal for both commercial and industrial applications, this roofing offers exceptional energy efficiency and is available in a variety of materials and finishes.

### DETAILS

<b>Market Applications</b>	Residential   Commercial   Industrial   Institutional   Transportation   Warehouses   Airports   Stadiums
<b>Dimensions</b>	<b>Widths</b> 12"-24"; Seam <b>Heights</b> 0.75"-4"; Lengths: up to 50'+
<b>Installation Methods</b>	Hidden clips   Snap-lock   Mechanical lock   Direct fastener   Structural deck attachment
<b>Customization</b>	Color   Width   Seam type   Curved/tapered panels   solar-ready options
<b>Material</b>	Steel   Galvalume   Aluminum   Zinc   Copper
<b>Finish</b>	PVDF/Kynar   Polyester   Powder-Coated   Galvanized   Anodized   Matte   Metallic   Textured

## ETHYLENE PROPYLENE DIENE MONOMER (EPDM)

EPDM roofing is a versatile, rubber-based membrane known for its outstanding weather resistance and durability. It is particularly resistant to UV rays, ozone, and extreme temperatures, making it an ideal solution for flat or low-slope roofs. EPDM provides a highly effective barrier against leaks and is low-maintenance, making it a cost-effective choice for commercial and industrial buildings.

### DETAILS

<b>Market Applications</b>	Residential   Commercial   Industrial   Institutional   Transportation   Warehouses   Airports   Stadiums		
<b>Dimensions</b>	Thickness 45–90 mil	Widths Up to 50'	Lengths Custom Rolls
<b>Installation Methods</b>	Fully adhered   Ballasted   Mechanically fastened		
<b>Customization</b>	Color (black/white)   Thickness   Reinforcement   Seam type		
<b>Material</b>	EPDM synthetic rubber membrane		
<b>Finish</b>	Smooth   Textured   UV-resistant coatings

Reinforced EPDM

## TPO ROOFING

TPO roofing is a reflective, energy-efficient roofing system that is highly resistant to UV radiation, chemicals, and punctures. Made from a single-ply membrane, TPO offers a cost-effective solution for commercial roofs, particularly in warm climates. Its bright white surface enhances energy efficiency by reflecting sunlight, helping to lower cooling costs and improve sustainability.

### DETAILS

<b>Market Applications</b>	Residential   Commercial   Industrial   Institutional   Transportation   Warehouses   Airports   Stadiums		
<b>Dimensions</b>	<b>Thickness</b> 45–80 mil	<b>Widths</b> Up to 12'	<b>Lengths</b> Custom Rolls
<b>Installation Methods</b>	Mechanically fastened   Fully adhered   Ballasted   Heat-welded seams		
<b>Customization</b>	Color (white, gray, tan)   Thickness   Reinforcement   Energy-efficient options		
<b>Material</b>	Thermoplastic Polyolefin single-ply membrane		
<b>Finish</b>	Smooth   UV-resistant   Reflective   Energy Star finishes

# ROOFING BUILT TO LAST – SECURE, STRONG, AND STYLED FOR EVERY NEED.

## **SECURITY & SAFETY**

Engineered to protect against weather, fire, and structural risks.

## **DURABILITY**

lasting performance with minimal maintenance, designed for decades of service.

## **CUSTOMIZATION**

Wide range of materials, colors, and profiles tailored to project requirements.

## **VERSATILITY**

Suitable for residential, commercial, and industrial applications.

## **AESTHETIC APPEAL**

Modern finishes that enhance architectural design without compromising strength.

**YOU IMAGINE. WE BUILD.**
