**DECORATIVE WIRE MESH PANELS**

**REINFORCED ARCHITECTURAL WEAVE**  
**SDI-A26**

The **SDI-A26** architectural wire mesh pattern is a strong and rigid twin-wire weave that strikes a perfect balance between space and wire diameter. The use of double wires in the weave provides a cost-effective way to introduce more intricate patterns compared to traditional single-wire grids, making it an ideal choice for both functional and decorative applications.
