FACETED OPAQUE WIRE MESH

SDI-C01

The **SDI-C01** architectural wire mesh features an opaque weave with embossing technology on flat top cross wires, creating a faceted cladding material. The slight facets produce unique reflective patterns from a near-perpendicular view. This asymmetric mesh is commonly mounted on a rigid backer for vertical and horizontal surfacing, making it ideal for elevators, lobbies, airports, and retail environments.

SPECIFICATIONS

Percentage Open 0.0 %	Overall Thickness 0.206	Crimp Style PDFT-Emboss Lock	Aspect Ratio 10.56:1
Opening Limitation 0.000	Weight 2.36 lbs./sq. ft.	Max Length 120 Inches (A)	Max Height 60 Inches (B)

Material:

Stainless Steel, Brass, Bronze

Finish:

US10A, US10B
