**DECORATIVE WIRE MESH
PANELS**

**ARTISTIC LAYERED WIRE MESH
SDI-B16**

B16

The **SDI-B16** architectural wire mesh combines stainless steel with bronze-aged copper and round with flat wire, creating a dynamic weave that shifts with the viewer's angle. This strong, versatile mesh is perfect for canopies, divider screens, and railing infill panels. Available in mixed metal or all stainless, with the flat warp wire remaining stainless and the round wire in Copper, Bronze, or Brass, it can also be made in plain steel for decorative finishes like antique brass or champagne bronze.
