**DECORATIVE WIRE MESH PANELS**

**VERSATILE FLAT-TOP WOVEN MESH**

**SDI-A02**

The **SDI-A02** architectural wire mesh pattern is a strong flat top crimp design suitable for all applications. The **SDI-A02** mesh and diameter ratio, along with the typical flat top weave characteristics, creates a mesh with a heavy surface mass. Flat top weaves can be scaled and customized to suit many different functions, from fine to coarse spacings and diameters. Rectangular patterns are also easy to create for a desired aspect ratio.
