FLEXWEAVE MID-FILL MESH

SDI-A01

The **SDI-A01** wire mesh features a simple yet versatile spiral weave design made from round wire. This flexible pattern can be scaled to suit various applications, with density variations created by combining different spiral pitches. Available in **T316 stainless steel, copper, and aluminum**, it can also be finished with powder coating in a variety of colors. Multiple flexible mesh mounting systems are offered to bring your creative vision to life.
