DUTCH-HELIX WOVEN MESH

SDI-B08

The **SDI-B08** decorative wire mesh features a Dutch-style warp wire paired with helical crimped fill wires. The combination of simple wire shapes creates a unique mesh pattern that is both visually striking and soothing. This mid-fill architectural wire mesh is available in a variety of alloys and finishes, including Stainless Steel, Bronze, Brass, and Weathering Steel. Secondary finishes, such as plating, enhance the depth of the pattern, adding dimension and richness.
