**DECORATIVE WIRE MESH
PANELS**

DELICATE ARCHITECTURAL WIRE WEAVE
SDI-C10

C10

The **SDI-C10** architectural wire mesh offers a slightly more open design compared to other C series patterns, creating greater spacing between the fill wire repetitions. The opposing warp wires contribute a subtle role in filtering and reflecting light, adding a delicate touch to the overall design.

SPECIFICATIONS

Percentage Open 34.0 %	Overall Thickness 0.189	Crimp Style SubtleReflection Mesh	Aspect Ratio 4.00:1
